WHERE BRANDS MEET

INDIA

Last few years have seen a remarkable surge in the export industry driven by the vision of "Aatmanirbhar Bharat" or Self-Reliant India. The government recognized the immense potential of Indian products in the global market and devised a strategic plan to boost exports, and strengthen domestic industries. The government launched the "Make in India" campaign to encourage domestic manufacturing and enhance the quality and competitiveness of Indian goods.

India is riding the growth wave in the past few years. Coupled with the entrepreneurial ability of Indian businessmen and government support, we embarked the journey from Rank 12 to 5 in terms of GDP within a very short span of time. Also, the Foreign Direct Investments in India has increased and currently among the emerging markets, India has secured the second position. We want to invite the world to be a part of India's growth story to build on a philosophy of our honorable PM Shri Narendra Modi.
